Devil's Isle Survivor:

You know about Devil's Isle?

I guess if you're from around here you must have heard about it... It was the hideout of that legendary pirate king, Zaken -- only the bravest of the brave dare to venture there now.

But be warned...

Devil's Isle Survivor:

Devil's Isle... Oh, I am the sole survivor from that awful place... I don't want to mislead you -- many adventurers still go to Devil's Isle and return.

But I am the only one to return from the worst spot on that accursed island: Lematan's Fleet.

[Ask about Lematan's Fleet.](#)

Devil's Isle Survivor: 

Chaos... That's right. That's the best word I can use to describe it...

It was like something ripped a hole in reality itself. Both captain and crew were sucked in...

I later heard that that power is called Kamaloka or Pailaka or somesuch. They say that it will engulf the entire world.

That's when my nightmares came... Soon after closing my eyes, I dream of strange and horrible monsters who torture me until I wake again. Ah, but the real problem was something else... Do you know what it is?

[Ask him to tell you.](#)

I'm not the only one who has these nightmares!
And all of us are both emotionally -- and,
strangely enough, even physically -- drained
upon waking.

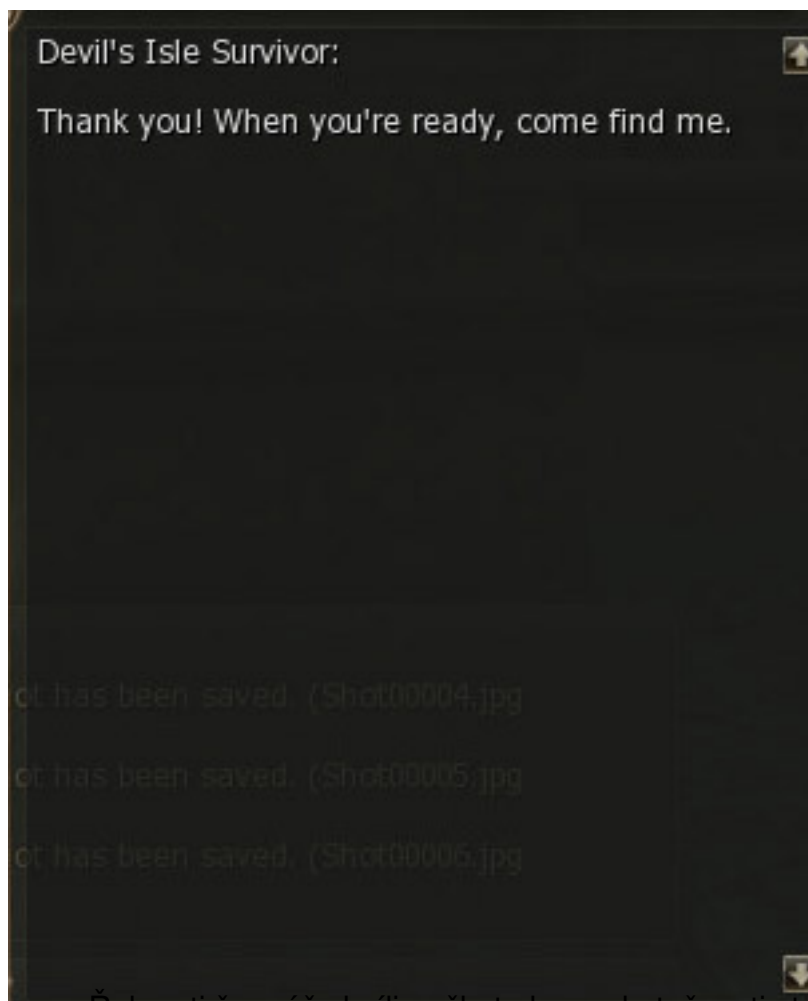

I thought it was this Kamaloka I've heard about,
but they say it's something else. It couldn't be
entered in the same way as Kamaloka.

The mages say it's called Pailaka.

Whatever its name, someone must penetrate it
and defeat this coming darkness... I believe you
have the ability to set things right. What do you
say? Will you do it?

(You will be rewarded for your efforts. Vitality
points will be granted to you immediately upon
completing the quest. If you receive the reward
while your Vitality Level is high, you may notice a
slight reduction.)

[Say yes.](#)

Devil's Isle Survivor: 

I looked into it while you were gone -- even the scholars can't agree about the nature of Pailaka...

But most think, as I do, that you should find an ally once you cross over.

We just don't know the specifics! Stay alert and you'll do fine.

Now then, we've talked long enough! Ready to go?

[Enter Pailaka.](#)

Devil's Isle Supporter:

Some time ago, powerful pirates came from the other side of the sky and occupied Devil's Isle.

I believe they are the ones who touched Jaken's relic. I don't know what they've done, but since then the monsters have become especially violent -- now nobody can even set foot on the island!

I don't know where they came from. But they occupied Devil's Isle and kicked out all the Humans and Dwarves. We can't just do nothing...

We must fight them! Here, take this sword. It can summon the **Tigress**, our fleet's guardian spirit. She will certainly be able to help you!

The enemies who invaded Devil's Isle are **Lematan's Followers**. Four of them are especially dangerous: **Kams, Hikoro, Alkaso and Gerbera**. Some of them will have Scrolls of Enchant Weapon.

Defeat them and you can enhance your sword and Tigress...and eventually become powerful enough to destroy Lematan himself!

That cursed pirate has finally fallen! Now I must ask you to return the sword. It is also a legacy of this place, so if you take it away -- even by mistake -- you will incur the curse of Devil's Isle.
